

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris Spence on 8 October 2009.

The application has been amended as follows:

IN THE CLAIMS:

Previously withdrawn claims 32-40 are now cancelled.

Allowable Subject Matter

2. Claims 21-31 are allowable over the prior art of record. The following is an examiner's statement of reasons for allowance: regarding claims 21-31, while the prior art teaches a system for the removal of bone, cartilage and muscle, the prior art of record does not teach or fairly suggest a dermal tissue nanografting system as claimed by Applicant, wherein a dermal tissue cutting tool is received within an opening in the housing of a tissue particle harvester. The cutting tool of the prior art is separated from the housing by a flexible shaft, and therefore cannot be "received within" an opening of the housing.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
